

# Electrical Department

In the middle of dinner, half the lights go out. The exhaust fans stop and the restaurant fills with smoke. Your customers are leaving. Who do you want on your side? The reliable, dependable, and quickly responsive technicians from Tech-24's Electrical Department.

Here to serve all of your electrical needs from running new circuits or upgrading older ones to replacement of your hood fan motors. Our Electricians offer 24 hour a day service to solve all of your electrical power needs. Are your Dimmers going bad or do you have lights that need replacing? Whether it's high voltage three phase or low voltage systems, Tech-24 has the experience specific to your restaurant needs. Tech-24 also offers Network/Data Cabling (Cat5e) installations and repairs.

Are your breakers tripping intermittently for no apparent reason? Let our electricians trace out your problems and recommend the best and most cost efficient ways to solve your issues. You may need to upgrade the service or simply move appliances to different outlets. With 24/7 service, your electrical problems are only hours from being solved allowing you to get back to what you do, run your business.
