

# Foodservice Department

Armed with a large and experienced staff, the Foodservice Department has the ability to repair any and all of your commercial cooking and food preparation equipment. With 200 years of combined experience, Tech-24 Foodservice Technicians are at the top of their craft.

From heat lamps and soup wells to combi steamers and high efficiency fryers, Tech-24 repairs all equipment from the simple to the extreme. Our technicians are constantly trained in the latest technologies and newest equipment on the market today.

Responding to your service needs is our number one priority. Same day service is the norm not the exception. Average response times are less than 4 hours and many times are under two. Tech-24 maintains multiple technicians on call and ready to roll 24 hours a day 7 days a week, including weekends and holidays, to keep you up and running.

Tech-24 also offers Preventative Maintenance agreements to suit your individual restaurant needs. Catching potentially devastating problems early before they can effect your bottom line is key in this fast paced environment.

**Service Excellence begins @ 703.354.3835**
