

# HVAC Department

Whether it is heating or cooling, the comfort of your restaurant guests must be maintained for their dining experience to be enjoyed. That is where the Tech-24 HVAC Department can help by providing the needed services that your Air Conditioning systems require. From routine Monthly filter changes, quarterly v-belt changes to Semi-Annual condenser coil cleaning, high quality maintenance is a must to keep these systems operating properly. Tech-24 offers Preventative Maintenance contracts to suit your individual location needs.

The HVAC Technicians from Tech-24 are trained in all types of AC and Heating units including Package Roof Top units, Air Handlers/Split Systems, Cooling Tower and Water Source Heat Pumps and Economizers. One easy call to Tech-24 brings back your peace of mind when the customers start complaining.
